2022 BEST IN SHOW
& MOST INNOVATIVE BUILDING MATERIAL

The Future of Stone

The next evolution in decorative stone is here.

Evolve Stone® is the most innovative stone siding product to date, surpassing its predecessors in value, ease, and accessibility. Formulated from patented Evolve Material, it is the very first stone cladding that can be face nailed in the same fashion as traditional siding, reducing installation time dramatically. Like real stone, this proprietary material holds its color throughout, so it can be cut to fit on-site while maintaining the highest appearance standards.

Evolve Stone is a creation of Evolve Manufacturing, whose clients include Cabela's, Sea World, Royal Caribbean, and the Discovery Channel, among many others. Their inventive, unconventional approach, cutting-edge technology, and decades of precision craftsmanship have made them the premier designer of rock structure environments in the world.

Features and Benefits

- + Most realistic stone veneer product on the market
- + Easy installation—up to 10X faster when compared to the competition
- + Moisture impermeable compared to competitors' products, which can hold moisture against the structure
- + Extremely durable, reducing breakage during shipping and installation
- + No heavy duty staging or scaffolding required
- + No need for engineered tie-backs, grade beams, or stone ledges
- + Installs structurally under vinyl siding guidelines

QUICK INSTALL

INFUSED COLOR
THROUGHOUT

Technical Specifications

- + Patented material and process
- + UV resistant
- + Infused color throughout
- + Performs extremely well under wind loading
- + No effects when exposed to salt spray during testing
- + No effects when exposed to freeze/thaw cycles during testing
- + Moisture impermeable—will not hold moisture against structure
- + ICC-ES listed, ESR3970 for Non-Rated and ESL1247 for Fire-Rated

Installation Advantages

- + Installs up to 10X faster than the competition
- + No lath, mortar, or hardware needed
- + No specialized labor training required
- + Engineered shapes and patterns—no need to lay out stones before installing
- + Installs with standard tools
- + Installs without heavy scaffolding or staging, thanks to lightweight composition
- + No structural considerations needed to install
- + No weather or temperature-related installation restrictions
